Decision Dynamics, Inc. (DDI) is an industry leader providing Electronic Lien and Titling (ELT) services to over 3,200 lenders across the nation. DDI's Premier eTitleLien® solution allows lenders to receive and release vehicle titles electronically, all within an easy-to-use, secure, web-based application. Lenders will have the ability to view and maintain their entire title portfolio with a few simple clicks. Why DDI?

- Easy-to-use, yet feature rich application.
- Built-in forms and title workflow management.
- Real-time title inquires and special fraud prevention modules.
- No monthly minimums, no per user fees, no setup charges, no support fees.

DDI's Title and Registration Center can assist customers with processing and maintaining their paper title and registration portfolio all within our web-based application creating a total title management solution. The Title and Registration Center can also:

- Process out-of-state title and registration request.
- Provide title and registration services in all 50 states.
- Manage paper titles in a secure title center location.
- Handling state-to-state transfers
- Determine documentation required for repossessions.
